## Hidden Compartment Training

Dynamic Police Training (DPT) is dedicated to providing the most advanced, state of the art training related to hidden compartments inside passenger and commercial motor vehicles. DPT's TrapMate\* class offers live trap videos, pictures, in-car recordings and other materials depicting hidden compartments in their entirety from start to finish. These range from electronically operated dash traps, center console traps, seat traps, floor traps, roof traps, rocker panel traps, front and rear quarter panel traps along with sophisticated intake manifold traps, oil pan traps, firewall traps, gas tank traps, tire traps, muffler traps, and MANY more!

The instructor, Jeramy Ellison (AKA) Trap Master **J** has an extensive background in locating and identifying hidden compartments with over 12 years of Law Enforcement experience in Texas and Illinois. Throughout his career, Jeramy has seized millions of dollars in U.S. currency derived from illicit criminal activity, over a ton of hard narcotics and a staggering amount of hidden compartments. Jeramy is also deemed an expert in courtroom testimony related to criminal interdiction and hidden compartments.

After taking the TrapMate\* class, the students will have an in-depth understanding on how drug cartels and other criminal organizations utilize compartments to smuggle contraband throughout the U.S. Students will also be able to identify these specific vehicles and identify hidden compartments effectively, efficiently and professionally. Students can then take this knowledge and make a difference in their local communities, roadways, and highways.

**Register for the TrapMate\* class and learn to become a Trap Master!**

\* For any student who attends the TrapMate\* class and locates a hidden compartment within a year of the class will receive a complimentary challenge coin for his/hers accomplishment and join the elite "Trap Master Club"
